

# John W.

Organizational leader in strategy, initiatives, and processes in business, education, and nonprofits; Consultant with IBEC since February, 2022.

## Expertise

Business leadership. Early and mid-stage organizational development. Strategic and tactical planning. Business development. Sales management. Product development. Product launch. Personnel development.

## About John

John comes from 30 years of sales, implementation, and execution positions. Most recently, he has been serving as Senior Systems Administrator for the fastest growing school district in Colorado. He is implementing numerous solutions for automation of processes and data exchange.

He brings a strong understanding of how business leaders can navigate various difficulties, and drive overall organizational results. He has worked in early-stage and small companies, as well as launched and managed new territories within new ventures. He has significant experience in helping companies adopt new programs to expand their markets, increase efficiencies, and overcome barriers to change.
